

Fraudulent online trading platforms: the FSMA updates its list of suspicious sites

08/07/2021 Warning

During the last weeks, the FSMA continued to receive complaints from consumers concerning new fraudulent online trading platforms that are operating in the Belgian market. To help understand how this type of fraud works, the FSMA has produced an animated film as well as a video with the testimony of a victim (available in [French](#) or [Dutch](#) only) of this kind of fraud. The films are being disseminated as part of the FSMA's [new campaign raising awareness of online fraud](#).

These trading platforms try to arouse consumers' curiosity by placing **scam ads on social media**. In these fake ads, a well-known person often explains how to get rich quick. Trading platforms also use **mobile applications** to lure victims. These fake ads or mobile applications often form part of the offer of a virtual currency or training course. After clicking on the ad or downloading the mobile app and having given their contact details, the victims are usually swiftly called by fraudsters presenting a concrete investment proposal (in shares, alternative investment products, virtual currencies, etc.).

These platforms act very aggressively. Scammers even try to persuade the victims to allow them to take control of their computer remotely in order to make certain money transfers. The fraudsters also try to convince the victims to invest increasingly higher amounts of money.

Victims who agree to do so complain in particular about:

- **finding themselves unable to recover their money, or**
- **simply not hearing any more from the platform** with which they have invested their money.

These are most likely cases of **investment fraud**.

The FSMA notes that several fraudulent trading platforms propose a so-called "affiliate programme" to consumers. These programmes exhibit signs of a [pyramid scheme](#) or at any rate of a Ponzi scheme.

The FSMA strongly advises against responding to any offers of financial services made by the following new trading platforms:

- **Bitengecko** (www.bitengecko.com)
- **CryptoMatex** (www.cryptomatex.com)
- **Deltamarket** (www.deltamarket.net and www.delta-mark.net)
- **Eiro-group** (www.eiro-group.com)
- **EuroStandarte** (www.eurostandarte.com)
- **Finetero** (www.finetero.com)
- **FXCT Investments** (www.fxctinvestments.com)
- **Goldenrodfx** (www.goldenrodfx.com)
- **Kapitalfx** (www.kapitalfx.de and www.kapitalfx.ch)
- **Profxmarket** (www.profxmarket.eu) (**cloned firm**)
- **Riva financial systems** (www.rivafinancialsystems.com)
- **Tradergy** (www.tradergy.io)
- **TradeVtech** (www.tradevtech.com)
- **United asset finance limited** (www.united-asset-finance.com) (**cloned firm**)

In order to avoid fraud, the FSMA addresses the following recommendations to investors: **Always check the identity** (company name, home country, registered office, etc.) **of the company**. If the company cannot be clearly identified, it should not be trusted.

Always verify if the company in question has the requisite authorization. To this end, an easy [search](#) on the financial supervisory authority's website will do. **Important!** Always beware of '**cloned firms**': companies that pass themselves off as different, lawful companies even though they have no connection with them. A close look at the email addresses or contact details for the companies in question may prove useful in order to detect this type of fraud and prevent it.

More than ever, prudence is necessary. In case of any doubt, and before making any (more) payments, do not hesitate to contact the FSMA using the [consumer contact form](#). As well, please feel free to notify it of any contact with a suspicious company that has not yet been the subject of a warning by the FSMA.

Should fraudsters moreover manage to take control of your computer, the FSMA recommends that you contact your bank and, if necessary, that you change your passwords.

For more recommendations aimed at avoiding investment fraud, the FSMA invites investors to consult the '[How to recognize and avoid fraud?](#)' page on its website.

Watch the new awareness campaign videos (available in [French](#) or [Dutch](#) only).
