

The Financial Services and Markets Authority (FSMA) warns the public against the activities of Stock Global, a company that offers investments without complying with Belgian financial legislation.

Stock Global is not allowed to provide banking and/or investment services in or from Belgium.

Furthermore, the FSMA reminds the public that since 18 August 2016, no investment firm (authorized or not) is permitted actively to distribute, within the territory of Belgium, binary options or any other derivative instruments whose maturity is less than one hour and/or that directly or indirectly use leverage (including forex derivatives and CFDs).

The FSMA therefore **strongly advises against responding to any offer of financial services** made by Stock Global and **against transferring money** to any account number it might mention.

The FSMA also reminds the public that in the vast majority of cases, persons who invest in firms that do not hold the requisite authorization **never recover the sums invested**. These are cases of **investment fraud**.
