

Cobber Finance (Watch out: look alike!)

Watch out for look-alikes! The Netherlands Authority for the Financial Markets (AFM) warns consumers not to respond to offers from the website <https://cobber-finance.com>. This company behind this website is a suspected boiler room which misuses the name and a former address of the Dutch license holder Cobber Finance B.V. The suspected boiler room has approached persons without being asked, to offer them investment proposals. A boiler room is a collective term for fraudulent individuals and organizations using clever salespeople to call potential investors to pressure them into investing money with the promise of high returns (cold calling). In reality the investments are either worthless or non-existent. The AFM has established that the company behind the website <https://cobber-finance> does not have an AFM license or a European Passport and misuses the name of a Dutch license holder.
